

Tregarne PegBoard Clamp

Introducing the NEW PegBoard Clamp

from the manufacturers of the Tregarne WoodWelder.

This sturdy clamp is available in either vertical (as shown) or horizontal format. Its robust design ensures even and consistent clamping for all applications. The heavy duty 80mm bore pneumatic rams can handle small kitchen door joints to the toughest of applications such as window and door frames. Special versions and

bespoke clamps can also be designed and built to suit your requirements. With over 70 years of clamping experience behind the design team, these clamps are built to last and we are sure will go beyond your expectations.

Standard sizes: 1000mm x 2250mm capacity
